

*A private, not-for-profit, elementary school for children with high functioning Autism and Asperger's Syndrome*

## *Support a Child with Autism*

*Woodview offers a nurturing, respectful and holistic alternative.*

### *Sponsorship Plan*

Woodview Learning Centre has embarked upon a second successful year of operation with a group of junior students. We wish to expand our population to include those families whose children would benefit from our program but who cannot afford the full tuition fee, through sponsorship of a child by community organizations/businesses and service clubs.

Woodview Learning Centre is a **not-for-profit organization** and all sponsorships go 100% towards the operational costs of the school.

*For more information on funding opportunities for your child, please contact:*
